- https://centers.ju.edu.jo/ar/ERD/Lists/EServices/All_Items.aspx

January 2024

Writing up of the Manuscript

You may also identify a relevant journal and read the notes to author and modify the manuscript accordingly.

The manuscript should contain the following sections

Abstract

Introduction

Methodology

Results

Conclusion

References

A manuscript Template will be provided

March and April 2024

- Between March 24th and March 31st there will be the research project appraisal
- It will be an **oral presentation of the Abstract plus results tables and figures**
- To be presented by all team members
- Discussion will be with 3 faculty members
- Results will be out by April 7th announcing oral and poster presentations at the Scientific Day
- Scientific Day will be held on April 25 2024 and attendance is mandatory.
- Orientation sessions will be conducted for both oral and poster presentations.
- **Appraisal of the graduation project will be on your manuscript, your oral presentation and the final presentation at the scientific day.**
- **Good Luck!**

GCP

- This is an introduction to our sixth-year students on WHO designed global principles and regulations governing research on human subjects, tips on protocol writing and open data access.
- **GCP Certification is part of the Graduation Research Project Requirements**

GCP

- It builds upon previous courses including Quantitative and Qualitative Research.
- Each student should obtain official GCP certification by the end of February 2024

GCP

- The chosen course certificate by our Medical School is issued by the US NIH because it is recognized globally.
- **The NIH GCP Certificate will be recognized in the USA and worldwide and valid for three years**

Online GCP Training and GCP Certificate

- Link to the course:
